L	240	105 ± 5	0.08	0.08
XL	240	115 ± 5	0.08	0.08

Product Description:

- ✓ More durable, softer and anti-aging than PVC gloves.
- ✓ Better sweat-resistance, more comfortable when donning
- ✓ Vinyl Nitrile blend glove is a new type of synthetic glove that was developed based on the vinyl glove production technology.
- ✓ Its material is compounded with PVC paste and Nitrile latex, so the finished production has the advantage of both PVC and Nitrile gloves.
- ✓ This products are widely used in fields of medical examination, dentistry, first-aid, healthcare, gardening, cleaning, etc.
- ✓ Nontoxic, Harmless and Odorless.
