## Overview

### Key Features

#### Features :

- Enhanced safety : the quick-activating braking mechanism stops a fall within centimeters allowing for a quick and safe rescue. A highly visible load indicator identifies that the unit should be removed from service.
- Greater comfort of use : lightweight, with a built-in-handle on the 15 and 20m units, the unit is easy to handle and transport to/from jobsites. The unique side payout design reduces wear on the entry guide and cable and ensures a smooth operation with less resistance.
- Authorized for horizontal use when used with a steel or stainless steel sling

**Benefits :** this self-retracting lifeline is the ideal fall protection solution for construction, industrial, warehouse, utility, mining and confined space applications. Nearly indestructible with high-impact resistant nylon housing, galvanised or stainless steel cable, integrated fall indicator.
